

KIRAN KUMAR CH

Chennai, Tamil Nadu | +91 9841067579 | [Email](#) | [LinkedIn](#) | [LeetCode](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Software Engineer with experience in enterprise applications, full-stack development, and cybersecurity. Skilled in Java, REST APIs, and scalable system design, with hands-on experience building secure and production-ready solutions.

Education

VIT Bhopal University, Bhopal, Madhya Pradesh, India

B.Tech Computer Science Engineering (Cyber Security and Digital Forensics)

Expected Aug 2026

Cumulative GPA: 8.52

Technical Skills

Programming Languages: Java, Python

Security Tools: Wireshark, OWASP ZAP, Ghidra, Nmap, Burp Suite

Cloud & Platforms: AWS (EC2, S3, IAM), Firebase

Web & Databases: HTML, CSS, JavaScript, MongoDB, SQL

Operating Systems: Windows, Linux

Cybersecurity Domains: Malware Analysis, Network Security, Vulnerability Assessment, Web Application Security, Security Monitoring, Threat Detection

Languages: English, Telugu, Tamil, Hindi

Certifications: Oracle Gen AI Professional, Oracle Cloud Associate, IBM Cyber Security Analyst, Oracle Java Foundations Associate, Oracle Architect Associate, Cyber Physical Systems (NPTEL), eJPT (*In Progress*)

Professional Experience

Suki Software Solutions (Programmer Analyst Trainee)

Mar 2026 – Present

- Developing enterprise-grade ERP solutions using Java, PrimeFaces, and REST APIs.
- Designing scalable backend services and business workflows to enhance system efficiency.
- Building dynamic UI components and optimizing application performance.
- Troubleshooting production issues and implementing process automation.
- Collaborating with cross-functional teams in Agile environments to deliver reliable solutions.

StayChat AI (Software Developer Intern)

Nov 2025 – Apr 2026

- Built responsive UI components for an AI-powered customer support platform using React and Tailwind CSS.
- Developed dashboards, chat interfaces, and messaging workflows to improve usability and performance.
- Integrated AI-driven modules with REST APIs and optimized frontend architecture.
- Managed GitHub repositories, resolved merge conflicts, and improved deployment reliability.

The Red Users (Cyber Security Intern)

Feb 2025 – Mar 2025

- Automated malware analysis workflows using Python to streamline security operations.
- Analyzed network traffic using Wireshark and identified anomalous activities.
- Performed web application security assessments using OWASP ZAP.
- Identified vulnerabilities and recommended remediation measures to strengthen application security.

Projects

SecureInbox – Secure Email Communication Platform (React, FastAPI, MongoDB, Cryptography) April 2026

- Developed a secure email platform focused on protecting sensitive communications through encryption mechanisms.
- Implemented authentication, secure message handling, and role-based access controls.
- Designed backend APIs for encrypted email transmission and storage.
- Enhanced data confidentiality and integrity by integrating modern security practices into the communication workflow.

Streamlined Malware Analysis with Ghidra (Python, C++) Dec 2024

- Leveraged reverse engineering, symbolic analysis, and memory mapping techniques in Ghidra for malware inspection.
- Developed custom scripts to automate repetitive analysis tasks, improving vulnerability detection efficiency.
- Contributed to research exploring Ghidra-based approaches for malware analysis.

Health Oracle – AI-Driven Health Assistant (React Native, FastAPI, ML) May 2025

- Designed a mobile application integrating wearable device data with machine learning models for disease prediction.
- Developed secure FastAPI services enabling seamless integration between AI models and the mobile application.
- Delivered personalized health insights through predictive analytics.

Hackathons & Activities

Smart India Hackathon (SIH) 2025

- Developed an urban mobility solution emphasizing intelligent routing, accessibility, and enhanced user experience.
- Collaborated in a multidisciplinary team to design scalable and user-centric features under strict timelines.

National Cadet Corps (NCC)

- Demonstrated leadership, discipline, teamwork, and effective decision-making through training programs and camps.
- Strengthened communication, adaptability, and collaborative skills in dynamic environments.
