PROFESSIONAL SUMMARY

Computer Science Engineering student graduating in 2026 with hands-on experience in Python, SQL, MySQL, database-backed applications, REST APIs, and cloud fundamentals. Experience working on enterprise software, data-driven applications, dataset analysis, and backend services through internships and academic projects. Strong analytical and problem-solving skills with familiarity in SQL joins, subqueries, aggregations, window functions, and relational databases. Seeking an Associate Data Engineer / Associate Data Scientist opportunity to build and work with real-world data systems, datasets, and modern cloud technologies.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, Java, JavaScript

Databases & Data: MySQL, MongoDB, Relational Databases, SQL Joins, Subqueries, Aggregations, GROUP BY, HAVING, Window Functions

Backend & APIs: FastAPI, REST APIs, JWT Authentication

Cloud & Tools: AWS (EC2, S3, IAM), Git, GitHub, Postman, Firebase

Frontend: React.js, HTML, CSS, Tailwind CSS

Operating Systems: Linux, Windows

PROFESSIONAL EXPERIENCE

Suki Software Solutions — Programmer Analyst Trainee

Mar 2026 – Aug 2026

- Developed and enhanced enterprise ERP modules using Java, PrimeFaces, and MySQL, working with relational databases to support core business workflows.
- Built reusable and maintainable application components, contributing to improved development efficiency and consistency.
- Collaborated in Agile sprints to analyze requirements, troubleshoot production issues, and deliver scalable software features on schedule.

StayChat AI — Software Developer Intern

Nov 2025 – Apr 2026

- Developed reusable React components and interactive dashboards for an AI-powered customer support platform.
- Integrated REST APIs to support end-to-end data flow between frontend interfaces and backend services, strengthening experience with data-driven systems.
- Managed Git workflows and deployment processes while collaborating on feature development and application maintenance.

The Red Users — Cybersecurity Intern

Feb 2025 – Mar 2025

- Developed Python-based scripts to automate malware inspection workflows and reduce repetitive manual analysis tasks.
- Performed network traffic analysis and web application security assessments, strengthening analytical and problem-solving skills.
- Worked with technical data and automated workflows to support efficient analysis and investigation.

PROJECTS

Health Oracle — AI-Driven Health Assistant *React Native | FastAPI | Machine Learning | Dataset Analysis*

- Collected and worked with healthcare and wearable-related datasets from Kaggle to support analysis for an AI-driven health assistant.
- Performed data analysis to understand dataset characteristics and support health prediction functionality.
- Built FastAPI backend services and APIs enabling communication between the mobile application and ML components for personalized health-related insights.

SecureInbox — Secure Email Communication Platform *React | FastAPI | MongoDB*

- Built a full-stack application with FastAPI backend services and MongoDB for secure message storage and retrieval.
- Designed REST APIs to manage application data flow and communication between frontend and backend services.
- Implemented JWT authentication and role-based authorization across the API layer for scalable, secure message transmission.

Malware Analysis Automation with Ghidra *Python | C++*

- Developed Python scripts to automate repetitive malware inspection and analysis tasks, reducing manual triage effort.
- Strengthened Python programming, scripting, debugging, and analytical problem-solving skills.

EDUCATION

VIT Bhopal University

Bachelor of Technology — Computer Science Engineering (Cyber Security & Digital Forensics)

Expected Graduation: October 2026 | CGPA: 8.52/10

CERTIFICATIONS

Oracle Java Foundations Associate | Oracle Cloud Infrastructure Associate | Oracle Gen AI Professional | IBM Cybersecurity Analyst

HACKATHONS & ACTIVITIES

- Smart India Hackathon (SIH) 2025 — Built an urban mobility solution focused on intelligent routing and accessibility as part of a multidisciplinary team.
- National Cadet Corps (NCC) — Developed leadership, discipline, and decision-making skills through structured training.
