Chennai, Tamil Nadu | +91 9841067579 | kirankumarch1915@gmail.com | linkedin.com/in/kiran-kumar-chebrolu-733815211 | portfolio-mu-sagemg4ytva6h4.vercel.app

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience across enterprise Java applications, full-stack development, and cloud-integrated systems. Skilled in Java, React, FastAPI, REST API design, MySQL/MongoDB, and AWS, with a track record of shipping features in Agile teams. Strong foundation in secure software development, with practical experience in building scalable applications, APIs, and database-backed systems.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend & APIs: REST APIs, FastAPI, JWT Authentication

Databases: MySQL, MongoDB

Cloud & Tools: AWS (EC2, S3, IAM), Firebase, Git/GitHub, Postman

Operating Systems: Windows, Linux

Certifications: Oracle Java Foundations Associate | Oracle Cloud Infrastructure Associate | Oracle Gen AI Professional | IBM Cybersecurity Analyst

PROFESSIONAL EXPERIENCE

Suki Software Solutions — Programmer Analyst Trainee

Mar 2026 – Aug 2026

- Engineer enterprise ERP modules in Java, PrimeFaces, and MySQL to streamline core business workflows.
- Design reusable, maintainable UI components adopted across multiple modules, improving development velocity.
- Collaborate in Agile sprints to deliver scalable features and resolve production issues on schedule.

StayChat AI — Software Developer Intern

Nov 2025 – Apr 2026

- Developed reusable React components and interactive dashboards using Tailwind CSS for an AI-powered support platform.
- Integrated REST APIs to power AI-driven customer communication workflows end-to-end.
- Improved frontend maintainability through component-driven architecture, reducing duplicate code across views.
- Managed Git workflows and deployment pipelines, improving release reliability.

The Red Users — Cyber Security Intern

Feb 2025 – Mar 2025

- Automated malware inspection workflows using Python, reducing manual analysis effort.
- Performed network traffic analysis (Wireshark) and web application assessments (OWASP ZAP), strengthening applied security fundamentals now reflected in secure coding practices.

PROJECTS

SecureInbox — Secure Email Communication Platform (React, FastAPI, MongoDB)

Apr 2026

- Built a full-stack secure communication platform supporting encrypted email exchange.
- Implemented JWT authentication and role-based authorization across the API layer.
- Designed scalable FastAPI services for secure message transmission and storage.

Health Oracle — AI-Driven Health Assistant (React Native, FastAPI, ML)

May 2025

- Built FastAPI microservices supporting AI-driven health prediction, integrating wearable datasets for personalized analytics.
- Developed APIs enabling secure communication between ML models and the mobile application.

Malware Analysis with Ghidra (Python, C++)

Dec 2024

- Developed custom scripts for reverse engineering and automated malware inspection, reducing manual triage effort.

EDUCATION

VIT Bhopal University — B.Tech, Computer Science Engineering (Cyber Security & Digital Forensics)

Expected Oct 2026

Cumulative GPA: 8.52 | Bhopal, Madhya Pradesh, India

HACKATHONS & ACTIVITIES

- Smart India Hackathon (SIH) 2025 — Built an urban mobility solution focused on intelligent routing and accessibility as part of a multidisciplinary team under tight deadlines.
- National Cadet Corps (NCC) — Developed leadership, discipline, and decision-making skills through structured training and camps.
